L.I.E.s

TRUTHs

- L.I.E. #1 –**
“Everybody’s doing it!”
Only 40% of American teens have sex by the age 17. 57% have sex by the age of 20.
- L.I.E. #2 –**
“You need experience!”
Sexual maturity is best achieved by growing in sexual knowledge and intimacy with one committed sexual partner over a period of years. Also, the process of engaging in something so new & exciting & pleasurable with your new spouse is one of the greatest joys of marriage!
- L.I.E. #3 –**
“Unsure? Cohabitate!”
Cohabitators who eventually marry have a 60% higher divorce rate than couples who don’t live together prior to marriage.
- L.I.E. #4 –**
“Unmarrieds have the best sex!”
Research shows that: (1) Married people have sex more often than anyone else. (2) Married people experience far greater pleasure time after time as compared to every other group.
- L.I.E. #5 –**
“Stages of Intimacy, 14 – 17 are NOT sex!”
Definition of sex from Standard’s Medical Dictionary: “any act performed with another utilizing the genitalia of one or both people for sexual gratification”. Hand sex, oral sex, and anal sex are all still SEX!
- L.I.E. #6 –**
“Safe sex works!”
In order to provide the greatest protection, condoms must be (1) used before they expire, (2) stored properly before use, (3) put on correctly, and (4) removed and disposed of it without any spills. Even then, they still only provide an 85% risk reduction rate for Pregnancy and HIV transmission; a 50% risk reduction rate for Gonorrhea, Chlamydia, Syphilis, & Genital Herpes; and no clinical proof of effectiveness against Trichomoniasis, Chancroid, or HPV.
- L.I.E. #7 –**
“The only possible consequences are physical!”
This diagram is you, and the safe sex people say the only protection you need is for your thumb / Physical part of you. But what about the rest of your person?! The only way to protect your entire self is with the glove of abstinence.

“Guys: virginity is unmanly!”
The media and your ill-informed peers are not your standard for your sexual status or aspirations. It requires much more manliness to show maturity, self-control, and honor/respect for women. (Also, studies show that men who were virgins prior to marriage are better love-makers during marriage than men who were sexually active prior to marriage!)
- L.I.E. #9 –**
“Girls: virginity is old-fashioned!”
While the Women’s Liberation Movement has accomplished a lot for women, it has also tragically stripped them (pun intended) of their dignity and specialness as uniquely feminine. Your call is to be a woman of self-respect and modesty. Don’t give your heart or your body to any man who doesn’t love you like God. (Plus, studies show that you will enjoy sex much more in a committed lifelong relationship with one man!)
- L.I.E. #10 –**
“It’s animal instinct!”
All animal species have an innate sex drive that is impossible to stop! Except humans – we have “Intellect” which we can actually use to control and direct our instincts. Your body was made for sex, though, and the further you progress along the Stages of Intimacy, the more difficult it is to stop the process!
